Project Name	Metro Ticket Generating System in ServiceNow
Maximum Marks	2 Marks

	Section	Description	Key Issues/Emotions
1	I AM 👤	A metro passenger who regularly travels for work, college, shopping, or personal purposes and needs a quick, reliable, and convenient way to purchase metro tickets.	Daily commuter Quick access Reliable travel Passenger identity Convenience
2	I'M TRYING TO 🎯	Book a metro ticket online by selecting the source station, destination station, ticket type, and payment method so I can receive a digital ticket instantly before boarding the train.	Fast booking Instant ticket generation Online payment Real-time confirmation Easy navigation
3	BUT ⚠️	The current ticket booking process often requires standing in long queues at ticket counters or using vending machines that may be crowded or unavailable. It consumes valuable time during peak hours.	Long queues Time-consuming Crowded stations Manual ticketing Waiting time Delayed boarding
4	BECAUSE 🔍	The metro system depends on manual ticket counters and fragmented services. There is no centralized digital platform that allows passengers to book tickets, calculate fares, and access route information from one place.	Manual process Paper tickets No centralized system Limited online services Fare uncertainty Poor accessibility
5	WHICH MAKES ME FEEL 😞	Frustrated, stressed, and worried about missing my train because ticket purchasing takes too long. I want a simple, fast, and secure metro ticket booking system that works anytime and anywhere.	Frustration Stress Anxiety Missed train concern Time pressure Better user experience

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Metro Passenger	Book a metro ticket quickly before my journey and receive a digital ticket instantly.	I have to wait in long queues at ticket counters or ticket vending machines, especially during peak hours.	The current process is mostly manual and there is no centralized online booking and ticket generation system	Frustrated, Stressed, Worried about missing my train..
PS-2	Metro Ticket Administrator	Manage stations, routes, fares, ticket types, and monitor ticket bookings efficiently.	Updating fare details, routes, and booking information manually is time-consuming and prone to errors.	The information is maintained across multiple records without an automated centralized workflow	Overloaded, Concerned about data accuracy, Less productive.
